### Specifications

Security Ceiling Specs  
Brochures

2" Ceiling Panes - Max

Interlocking Deck - Min to  
Med

**PANEL SYSTEMS** - Maximum Security

**DECK SYSTEMS** - Minimum to Medium Security

Habersham Metal ceiling system designs are impact tested using our new innovative vertically upward impact testing machine. This equipment allows an 8 ft. square ceiling sample to be tested in the horizontal position as it would be installed in the field. The allows for the attachments, hangers and anchors, as well as the ceiling itself, to be tested and proven to be suitable for security requirements.
