Wall Panel Overview

3D Design Examples

- Our field assembled Detention Wall Panel System is versatile and will adapt to any room requirement.
- The Habersham Wall Panel System is ideal for retrofitting existing spaces for cells or secured areas.
- Panels are constructed using Habersham's time and industry tested steel stiffened construction in accordance with HMMA 863 design specifications.
- Testing— Our wall panels have been performance tested under the following test procedures.
- **Impact (ASTM F2322)**
- **De-lamination**
- **Furniture Load**
- **Acoustical (ASTM E90, E413, E1332)**
- Panels accommodate cell furniture - Double bunks, lavatories, mirrors, coat hooks, desk and table assemblies, interior and exterior windows are readily mounted to factory installed reinforcements and preparations.
- Panels are factory equipped as needed with junction boxes, electrical conduit, duct and pipe openings, and grille preparations.
- Cell hardware, glazing, furniture, fixtures and combination water closet/sink and showers are available as a package.
- Ceiling panels are available in various configurations and can be equipped with perforations and insulation as needed for sound control.
- Ceilings are factory prepared for light fixtures along with associated junction boxes and electrical conduit.
